

SAAB National Headquarters Establishes Sustainability Endowment Fund

SAAB National Headquarters has partnered with the Community Foundation of the Ozarks in Springfield, Missouri to create our 1st ever SAAB Endowment Fund!

This fund will grow into millions of dollars that will enrich the operational efforts for long term growth and sustainability as we seek to advance our next era of work and to transform into an institution with the capacity to support young men of color nationwide in educational and career attainment, along with helping them reach their fullest potential.

Pictured are Mr. Brian Fogle, CEO for the Community Foundation of the Ozarks and Dr. Tyrone Bledsoe, SAAB Founder confirming the partnership at the Community Foundation's Headquarters.

The Community Foundation of the Ozarks has spent more than 40 years working toward creating generous and thriving communities through philanthropy by connecting the passion of donors to support critical social innovations like SAAB.

You can also learn more about the SAAB Endowment Fund as well as other giving opportunities on our [Sponsorship Opportunity](#) page and Become A SAAB Supporter Today!
